EXPERIENCE

Freelance Web Development, Bay Area, CA

April 2013 - Current

Clients: Viscira, Computer Associates, MarketShare, Revuu, RDI, JKNIX, Growing Tree School

Sequence, San Francisco, CA — *Front-End Web Developer*

June 2015 - May 2016

High-profile design agency. **Clients I touched:** Chipotle, Chevron, Medtronic, Facebook. **Other clients:** Apple, Nest, Juicero, NerdWallet.

Viscira, San Francisco, CA — *Associate Web Developer*

June 2014 - May 2015

Agency focused on pharmaceutical and biotech clients. **Clients I touched:** Alexion, Sunovion, Ariad. **Other clients:** Genentech, Amgen, Johnson & Johnson.

PROJECTS

Guac Hunter — *Progressive web app for Chipotle*

www.GuacHunter.com - An interactive, find-the-difference game for Chipotle, used to give away free food. Built with only jQuery with multiple 3rd-party APIs.

Pizzeria Locale — *Website for Chipotle-owned pizza shop*

www.PizzeriaLocale.com - Built for Chipotle's custom CMS (on Rails), and involved some parallax-effect and responsive challenges.

Techron — *Microsite for Chevron's Techron product*

www.Techron.com - A (basically) single-page site to promote the fuel additive Techron. I worked with the designer to figure out how to present the videos, and was given liberties on most of the animations.

ShopHouse Kitchen Riddle — *Web-app riddle game*

shophouseriddle.joedalton.io - Built on Angular.js, a short-term promotional riddle game, with new riddles daily.

SKILLS

HTML5

CSS3: SASS/LESS

JavaScript: ES6, Angular, jQuery, Node.js, React.js, Gulp

PHP: Wordpress, Joomla
